

TRANSPARENT DONATIONS

ABSTRACT:

This project creates a donation system using Blockchain Technology to make everything transparent and safe. When people donate money to a cause, their donation is recorded on the Blockchain, so no one can modify it i.e. change or hide it. Donors can see exactly where their money goes, and campaign owners can only take the funds if they reach their donation goal. This makes the whole process clear and trustworthy.

By using Blockchain, we remove middlemen and lower costs, making donations more direct and reliable. This way, everyone can trust that the donations are being used properly.

The system ensures that donors contributions are not misused and provides a secure method for managing funds. Overall, it builds confidence in donation process and encourages more people to support causes they care about.

KEYWORDS: Blockchain, Transparent Donations, Smart Contracts, Secure Transactions, Middlemen Removal, Trust and Accountability, Fund Management, Transparency, Secure Fund Withdrawal, Direct Donations.

SDG's:

Goal 1: No Poverty

Goal 3: Good Health and Well-Being

Goal 4: Quality Education

Goal 10: Reduced inequality

Goal 16: Peace, justice, and strong institutions
